INDEPENDENT RESEARCH

PORTFOLIO: evanhassan.github.io

Olin / Huntsman (Analysis of $12.5 Billion All-Stock Announced Chemicals Merger)

- Wrote a transaction analysis covering strategic rationale, potential synergies, and proposed transaction structure
- Built a 17-tab Excel merger model with financial forecasts, purchase accounting, and EPS accretion/dilution

U.S. Silica / Apollo (Sum-of-the-parts Valuation)

- Valued business mix and cash flow using an SOTP analysis relative to Apollo's $15.50/share acquisition price

Additional Modeling and Projects | Thoma Bravo + Everbridge, H.B. Fuller + Ancora, Broadridge + Itiviti, 10+ more

PROFESSIONAL EXPERIENCE

NOW Capital Partners (Lower Middle Market Investment Bank) **Salt Lake City, UT**
Investment Banking Analyst Intern *Oct 2026 – Present*

- Build DCFs, draft CIMs, and create pitch decks for sell-side clients generating ~$10M–$350M in annual revenue
- Join partner-led client calls to gather financial data, support due diligence, and prepare transaction deliverables
- Develop a statistical model to map underserved LMM M&A markets and identify new origination opportunities
- Produce industry research reports covering sector trends, competitive analysis, M&A activity, and valuations

Tigbourne Capital (Oil & Gas Private Equity) **Remote**
Analyst Intern *Oct 2025 – Dec 2025*

- Built cash flow and IRR models with sensitivity analyses to evaluate investment opportunities in the energy sector
- Tripled deal sourcing productivity by building Python-based web scrapers and automated lead qualification tools
- Led a team of 3 analysts in screening a database of 2,000+ ADIPEC-related companies for potential transactions

Stratford Hill Capital (Private Equity Search Fund) **Boulder, CO**
M&A Analyst Intern *May 2025 – Sep 2025*

- Conducted financial and market analysis on 400+ potential acquisition targets across the Mountain West region
- Developed screening models that narrowed a 200,000-company pipeline to ~9,000 qualified acquisition targets
- Managed sourcing pipeline and optimized Clay AI outreach workflows, reducing platform credit usage by 60%

Cell Funds (Fintech) **Remote**
Analyst Intern *May 2024 – Aug 2024*

- Evaluated a proposed financial-processing subsidiary using DCF, trading comps, and precedent transactions
- Analyzed 44,000+ government contracts using Python-based keyword filtering to support market sizing analysis
- Designed a three-year marketing plan targeting 36,000 prospective customers for a proposed fintech subsidiary
- Advised the CEO against launch, citing market saturation, limited differentiation, and high RFP-monitoring costs

Tifin Fintech (Unicorn Fintech Startup) **Mumbai, India**
Software Development Intern (High School) *Jul 2022 – Nov 2022*

- Integrated Hugging Face language models with app data to make chatbot responses more contextually relevant
- Collaborated with cross-functional teams on backend development; received a full-time offer after five months
